Stream/Stream Pro

Quick Start Guide

Wireless Multi-room Audio System

www.ieast.net

Introduction

iEAST sound streamers are innovative and dedicated wireless streamers, which are able to turn your current speakers, soundbars and home theatre speakers into a Wireless Multi-Room Sound System by connecting to your home WiFi Network. The specialized iOS and Android App offers the easiest and best user-friendly experience for music streaming and multi-room sound system set up.

iEAST streamers also provide the most powerful playback options, which allow you to stream synchronized music or multiple kinds of music from your cellphone, online music services or your home media center with awesome sound quality in multiple rooms.

How It Works

App Download

- To use your iEAST unit, please download iEast Play App from App Store or Play Store.

available in store:

Connection Option 1

Wireless Connection for iOS and Android devices

- Connect your cellphone to your home network.
- Run iEast Play App and choose Add Device.
- Type the password of your home router in iEast Play App.
- Press WPS button on iEAST “WPS” to configure.

*Once connected, the device will be encrypted, the password is the same as your router's. To connect more units, no need to input password.

Connection Option 2

- Enter “Setting”-> directly connect iEAST units.
- After connecting with your iEAST unit, you can stream local music from the phone to the speaker.
- To open the control platform enter <http://10.10.10.254/> into your browser.
- Choose WiFi-> your WiFi Router-> enter the password and you should connect successfully.

Connection Option 3

The device can be directly connected via LAN w/o input the password. Users should follow steps to get the device encrypted:

Setting>Speaker info>Device Password.

Name Your Device

- After login, you can name your device as follows

Firmware Upgrade

- OTA upgrade can be done globally as follows.

Multi-Room Streaming Control

- iEAST units can be set up in different groups, such as “all rooms play same song”, “two rooms play song A, three rooms play song B”, or “each room plays a different song”, etc.
- To Set up Multi-room
On the control panel press one device and hold, drag it above the device you would like to pair it with.
- To Remove Multi-Room:
On the control panel, press the device you want to remove and hold, then drag it to the blank space.

Set up Multi-room

Remove Multi-Room

Device Control

Device control includes multi-room streaming control, multi-channel control, device setting, device rename, speaker info, password setup, language setting, timing power off, music alarm, 6 playlist content(only available on Stream Pro).

Playback Menu

Playback offers a comprehensive control for music playback. It will change the background color and cover art according to your music style.

Audio Source

The playlist will be shown under this menu:

- My Music: Local stored music/Home Music Share
- Spotify: Spotify streaming requires a subscription with premium account, it will jump to Spotify app to stream.

- * Apple music is only available on the Apple products via airplay.
- * Online music service will change according to updates.

6 Playlist Shortcuts Pre-set Define

Stream Pro units offer 6 playlist define on the remote controller number buttons. You can easily set up shortcuts for quick play of your favorite music without cellphone.
