ELAC DEBUT 2.0
S10.2

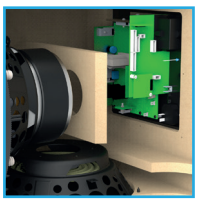
ELAC The life of sound.

Debut 2.0 Series meets its match.

ELAC DEBUT 2.0 **S10.2**

Bass that brings music and movies to life.
With 200 Watts* built in, there's plenty of power to deliver rock-solid low frequencies that make your favorite music and soundtracks come alive with the weight and presence of a live performance.

Custom Driver
A custom 10-inch long-throw driver provides the quality and quantity of bass that is fundamental to accurately reproducing today's demanding movie soundtracks and music.



Braced MDF Cabinet
A horizontal brace strengthens the cabinet, helping minimize unwanted vibrations that can discolor music or movie content. Low frequencies are reproduced with precision, without overhang or distortion.

BASH® Amplifier
Unlike conventional amplifiers, BASH amplifiers track the input signal and adjust the available supply voltage to a traditional Class AB amplifier.

ELAC's new S10.2 is designed as the perfect complement to the all-new Debut 2.0 loudspeakers, adding a powerful bass foundation to music and soundtracks that turns your system into a sensation you can feel as well as hear. Like Debut, the S10.2 has been engineered and built to deliver huge performance at an affordable price. The compact design allows placement in almost any part of your room.
